

Applied Self-Direction Conference 2019

Amber CIL Manager™

Claims Management Made Easy!

Home Health, FMS, CDS, Independent Living

www.GraySwanSoftware.com

(877) Gray-Swan

- The Amber CIL Manager, developed and supported by Gray Swan Software, is a robust, full-featured, eligibility, claims and payment management application designed for Home Health, Fiscal Management Services, Consumer Directed Service agencies as well as Independent Living Centers.
- The Amber CIL Manager is a internet based application that allows secure, HIPAA compliant access from any internet connected computer.
- The result is an unprecedented feature set that allows for accurate and efficient processing of the consumer billing information and properly authenticated attendants or office staff you designate.

Easy to Learn, Easy to Use!

Backed by 15+ years of experience and knowledge in Consumer / Client data and Medical billing within the CIL & Home Health environment

Internet Based Access

Easy, secure access from any internet connected computer, allowing use from multiple locations with unlimited users and easy administration of user accounts!

Rapid, Automated Medicaid Eligibility Checks

With results retention and advanced exception reporting, this feature helps you prevent loss and fraud.

Single Point Timesheet Entry & Time Data **Import**

The data is then checked against available plan of care units and then converted to charges. Finally all charges are automatically submitted for processing.

Partial Unfilled Units Recovery

Via this feature, the ACM takes all partial units, adds them up to make whole units and then bills them to Medicaid in one easy step.

Another key feature in preventing loss!

EVV / Telephony - Time Data Import

The ACM can easily import time data from just about any EVV / Telephony application and then convert that data directly into charges.

This feature saves time and improves accuracy!

Typical Data Flow

Time Data Collected from EVV / Telephony Client

Time Data Imported Into Amber CIL Manager
Checked Against Plan of Care Allotment, Exceptions Report
Charges Created & Sent to Insurance

Payroll Export to Payroll Application
From Charge or From Time

Payroll File Export

With the ACM you can easily generate an exportable file to use with payroll applications such as CYMA Payroll & Accounting!

This is another major time saving feature and we can export to just about any payroll application or service!

Electronic Remittance Processing

With the ACM you can download and apply payment data directly from payers with easy reporting of denied claims!

Another time saving feature that improves accuracy of your accounts receivable!

Powerful & Easy to Use Reporting

The Amber CIL Manager offers a wide array of built in reports designed to cover all of your needs!

Gray Swan offers custom reports to meet your individual needs!

Fully Secure - Fully HIPAA Compliant

Utilizing cutting edge security measures, your data is safe! Data is backed in real time via backup servers in multiple data centers. A monthly data DVD service is also available.

The ACM meets all HIPAA Standards!
