

Consumer-Directed and
Home Care Software & EVV

About Caretime

Serving the personal care and home health industries for over eight years. Led and directed by healthcare and technology executives.

Flexible solution that can serve both consumer-directed and agency directed care.

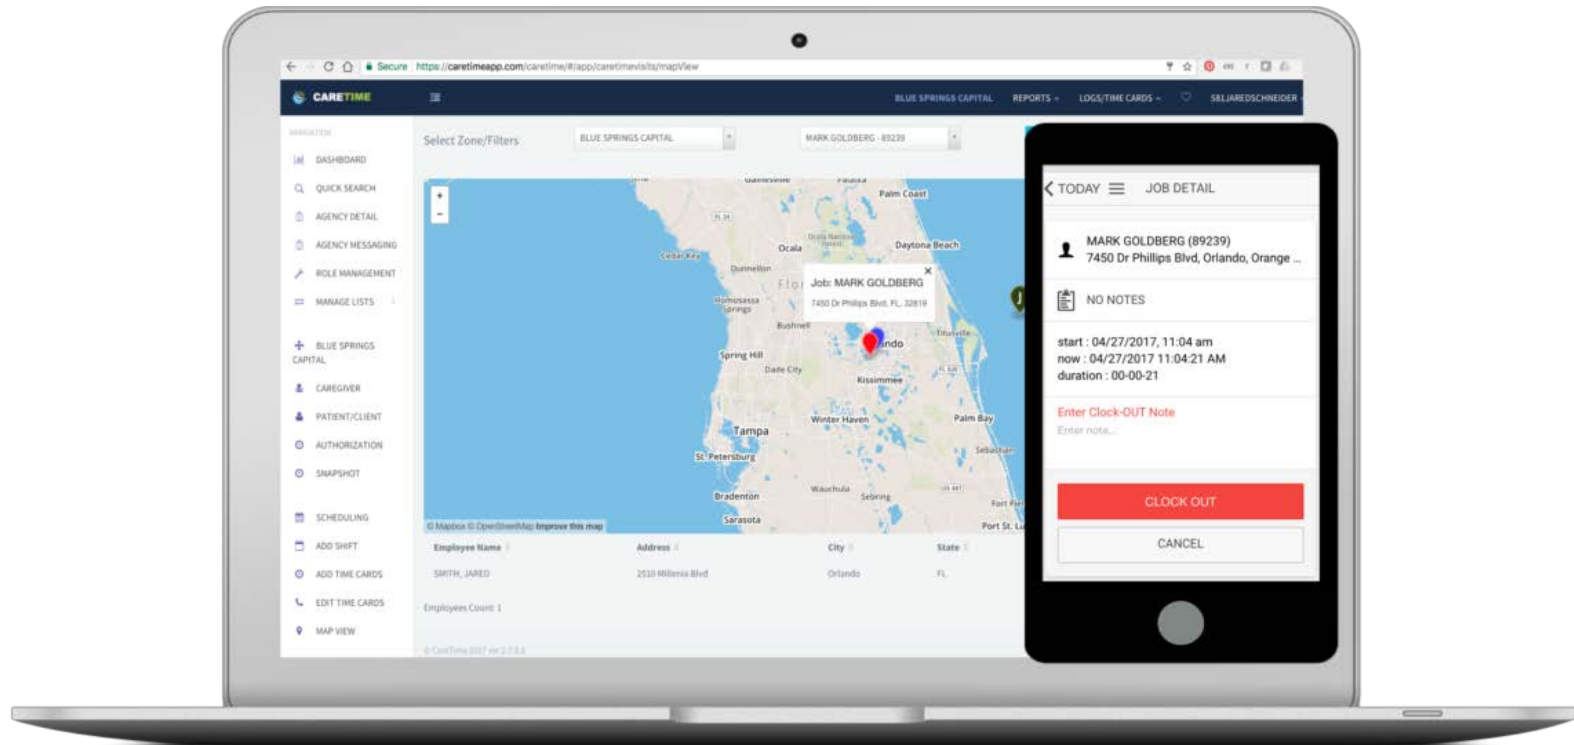

4.25 million visit check ins per year

\$20 million – estimated savings from fraudulent or improper billings*

** Less than CMS estimates of fraudulent and improper billings*

Powerful and Easy-to-Use EVV and Admin Software Platform

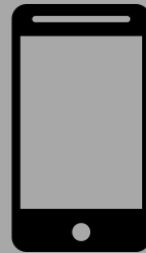

EVV – Electronic Visit Verification / Time Tracking

Multiple technologies

Telephony

GPS and Fixed
Location

Tablet/
Computer GPS

EVV Features: Voice Verification, Foreign Language, Alerts, etc.

Track Visits and Duration Effortlessly

Visit Notes, Details and Tasks

Reporting and Analytics on Visit Data

Integrate with Other Software

Multi-Language Support

Biometric Voice Verification for Extra Security

Alerts - Late, No Shows, Upcoming, etc.

Automatically Creates Billing and Payroll Data

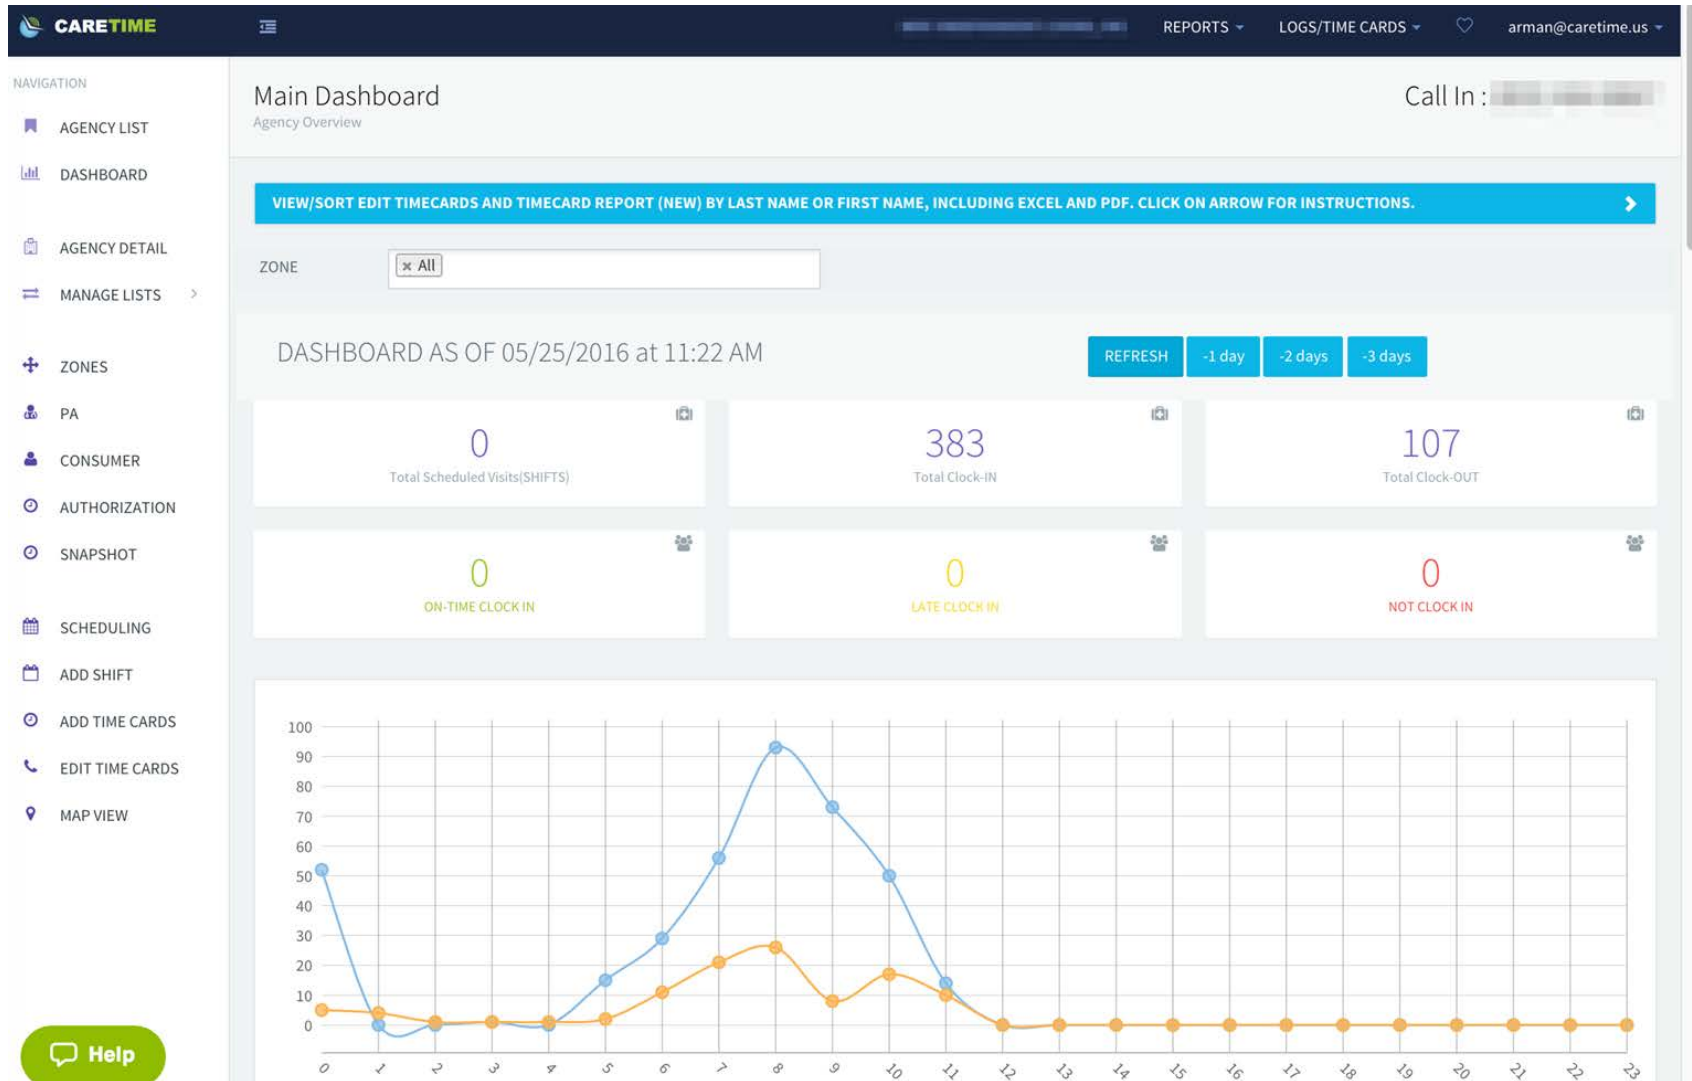

Multiple Technologies for EVV

Track Suspicious Caregiver Behavior

GPS Visit Verification & Mapping Ability

The screenshot displays the CARE TIME software interface. On the left is a navigation menu with options: EMPLOYEES, JOBS, AUTHORIZATION, SNAPSHOT, SCHEDULING, ADD SHIFT, ADD TIME CARDS, EDIT TIME CARDS, and MAP VIEW. The main area features a map with numerous location pins (blue and green) clustered around a central point. A sidebar on the right shows 'Distance from Job [5058] - INFIRMARY, 3'. Below the map is a table with the following columns: Job, Employee, Timestamp, Log Type, and Location. A 'Help' button is located in the bottom left corner.

Job	Employee	Timestamp	Log Type	Location

Help

Pre-built and Custom Reports

The screenshot shows the CARETIME interface for a Timecard Export Report. The left sidebar contains navigation options: AGENCY LIST, DASHBOARD, AGENCY DETAIL, MANAGE LISTS, ZONES, PA, CONSUMER, AUTHORIZATION, SNAPSHOT, SCHEDULING, ADD SHIFT, ADD TIME CARDS, EDIT TIME CARDS, and MAP VIEW. A green 'Help' button is at the bottom left.

The main content area is titled 'Timecard Export Report' and includes a 'SELECT FIELDS TO DISPLAY IN REPORT' section with checkboxes for various fields. 'Emp Name', 'Agency Job ID', 'Activity Name', 'Activity Code', and 'Pay Class' are selected. Below this, 'GROUP BY' is set to 'Job' and 'FILTER BY' is set to 'Specify Range'. The date range is 24-May-2016 to 24-May-2016. There are 'Search' and 'Clear' buttons, and 'Export Excel' and 'Export CSV' buttons.

Annotations with blue arrows and text highlight key features: 'Create custom export of filters you select' points to the selected fields, and 'drag and drop where you want' points to the date range selector.

clients

A Preferred Alternative Model for EVV

Neutral Aggregator Model

Benefits of Neutral Aggregator

1. One source for all EVV data and all data conforms to the format.
2. No conflict of interest – data storage & compliance and EVV capture technology are separated.
3. No litigation risk or single EVV vendor risk (state class-action lawsuit, single EVV vendor issues: system failure, business failure, doesn't work well with service type like consumer-directed care).
4. Allows for competition to create best EVV software solution for the provider (customer service, design and workflow) – “Minimally burdensome”.
5. Neutral Aggregator qualifies for Federal funding match.
6. Virginia is adopting this model, many other states considering.
