- Feedback & Discussion

PPL's EVV Process Flow

Self-Direction & EVV

Why it is important that participants who are directing their care use a different EVV system from people receiving care through a provider agency?

Important to Participants

Value control and flexibility of service delivery

Simple to use

No scheduling constraints

Seamless FMS Integration

Important to States & MCOs

21st Century Cures Act compliant

Help to mitigate fraud, waste and abuse

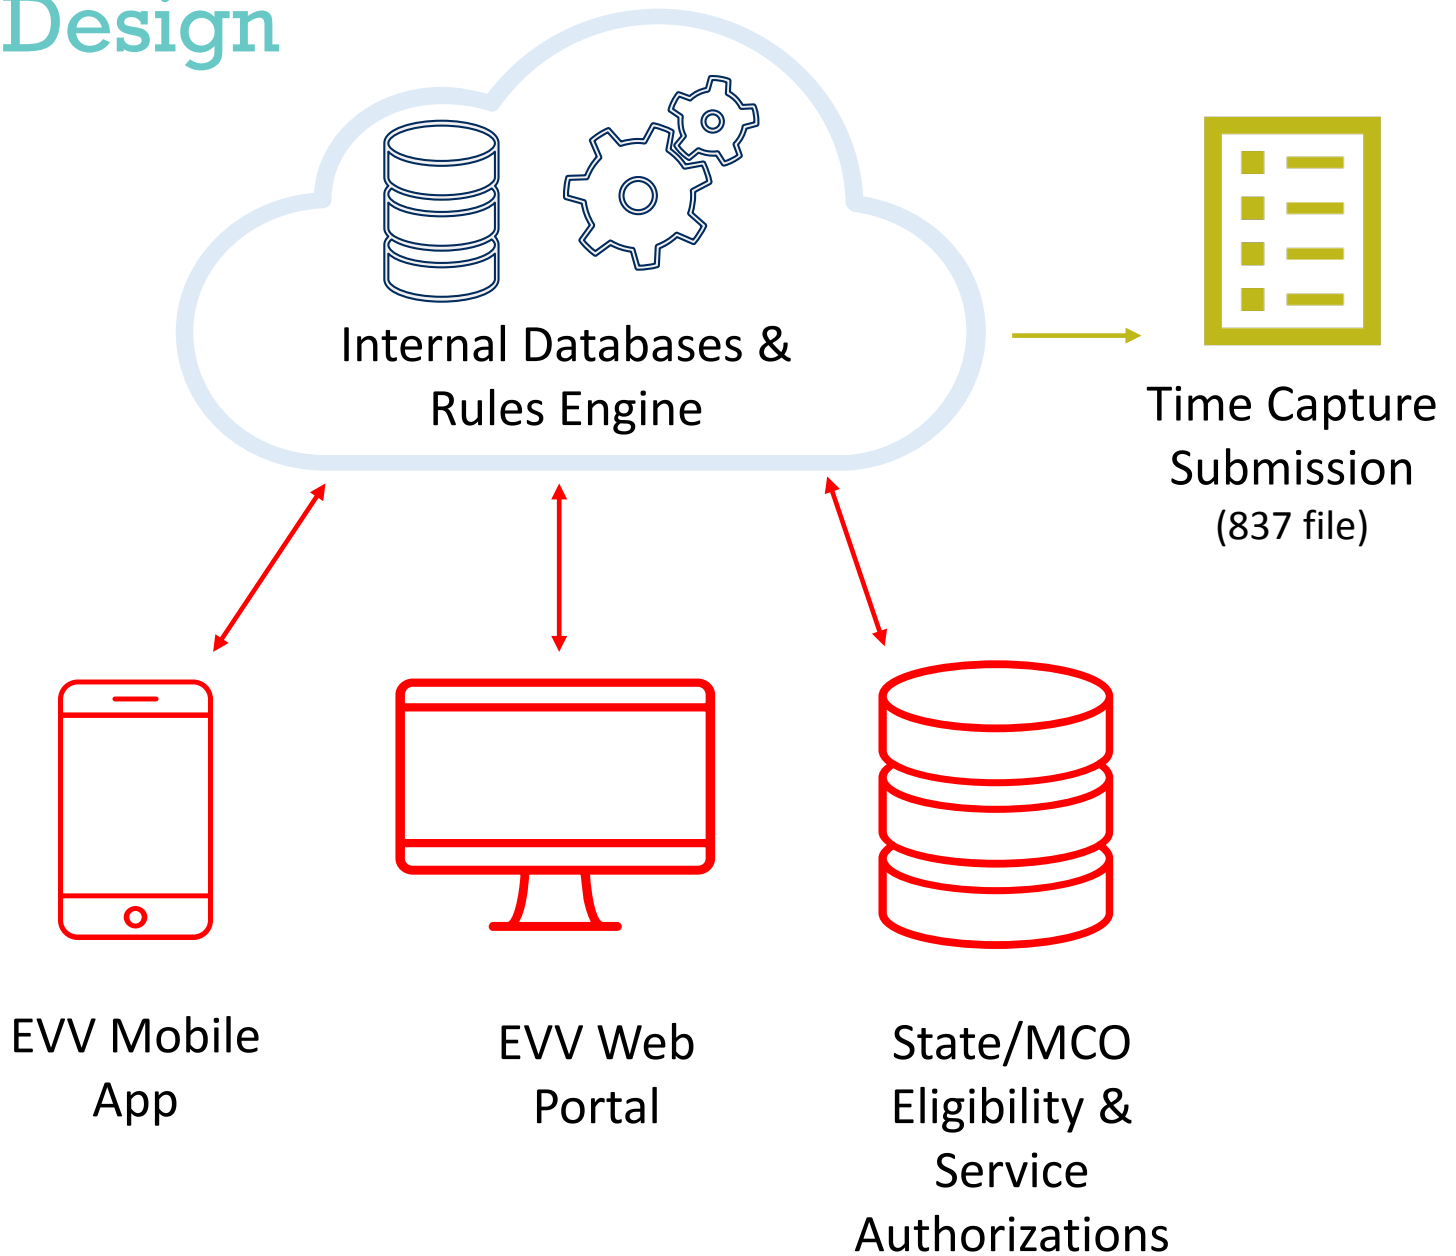

Real time visit line of sight

Vendor with self-direction knowledge and experience

System Design
